

# Pirates of IOS

## Fuck Ibiza

(created by Lord Eugsti, Mr. Speed, and a handfull other drunken Pirates)

**We rock and we roll, we booze and we cruise,  
we shag and we drag, ourselves into the bar.  
If you dont believe then fuck you all!  
We're the pirates and we stand tall.**

**Ref:**

**From the shores of Lebanon, to the rock of Gibraltar,  
our voices carry far when we sing:  
FUCK FUCK FUCK IBIZA, FUCK FUCK FUCK IBIZA!!**

*(the choir will have a drinking break then, while Angus Young performs on the guitar - or alternatively BJ on flute(s)).*

**Lord Homer we praise, to friendship our glasses we  
raise,  
brothers we are proud in our heart, under the flag  
black and white.**

**We party hard day and night, join us straight dont ask  
why,  
its only rock'n' roll and then you die!**

**Ref:**

**From the shores of Lebanon, to the rock of Gibraltar,  
our voices carry far when we sing:  
FUCK FUCK FUCK IBIZA, FUCK FUCK FUCK IBIZA!!**
